

BE A STAR SHINE BRIGHT

At the core of our whole school

Topic will remain our Curriculum

Drivers and our Values Education:

- ♦ Sport and Health
- ♦ Possibilities
- ♦ Environment
- ♦ Values
 - ⇒ Cooperation
 - ⇒ Empathy
 - ⇒ Resilience
 - ⇒ Excellence
 - ⇒ Determination
 - ⇒ Honesty

Art and Design

As artists, children will study Edvard Munch's famous painting 'The Scream'. They will analyse the symbolism of the painting and look in detail at the use of colours to create a certain mood. They will then create their own version of 'The Scream' using oil pastels.

Magnificent

Me Year 6

WOW

Children will come to school in their best clothes. As they enter, they will have their photograph taken on a red carpet!

Throughout the day, they will create a silhouette of themselves and write a 'Who am I?' poem, which will be displayed in the school. Children will then be treated to a black-tie style lunch. They will take part in icebreaker activities, so they can get to know a little about some other children in the key-stage and maybe even make some new friends.

Humanities

As geographers, children will study their heritage, exploring the countries that they, their parents and grandparents were born in. The study will include identifying key landmarks and exploring the culture of the country. They will then focus on celebrating their heritage and that of others.

Science

As scientists, children will consider life processes such as the circulatory system and the digestive system that are internal to the body. They will also explore the impact of lifestyle on our bodies.

PSHE and P.E

Children will explore ways of keeping themselves physically and mentally healthy. As well as exercise, children will consider the impact of a healthy lifestyle through healthy cooking. They will also find out about the importance of keeping themselves safe in a fast advancing technical world. We will also explore the negative impact bullying can have on an individual's mind-set.

Aspirations

To conclude our Topic, children will explore the vast opportunities that await them in the future. They will find out about many career paths that they could take in the future. They will be taught that determination and resilience is key to success.
