

BE A STAR SHINE BRIGHT

At the core of our whole school
Topic will remain our Curriculum
Drivers and our Values Education:

- ◆ Sport and Health
- ◆ Possibilities
- ◆ Environment
- ◆ Values
 - ⇒ Cooperation
 - ⇒ Empathy
 - ⇒ Resilience
 - ⇒ Excellence
 - ⇒ Determination
 - ⇒ Honesty

Art and Design

As artists, children will study Pablo Picasso's abstract portraits. They will think about the differences between realistic and unrealistic portraits. Using the skills they learn, they will create their own portraits in a Cubist style.

Magnificent

Me

Year 2

WOW

Children will come to school in their best clothes. As they enter, they will have their photograph taken on a red carpet!

Throughout the day, they will create a silhouette of themselves and write a 'Who am I?' poem, which will be displayed in the school. Children will then be treated to a black-tie style lunch. They will take part in ice-breaker activities, so they can get to know a little about some other children in the key-stage and maybe even make some new friends.

Humanities

As historians, children will develop an understanding of personal heritage by exploring changes within their living history. They will find out about their past by communicating with people from home.

Science

As scientists, children will explore what humans need for healthy living. They will find out how to look after themselves by keeping healthy and fit. They will work scientifically to find out the importance of exercise and hygiene.

PSHE and P.E

Children will explore ways of keeping themselves physically and mentally healthy. As well as exercise, children will consider the impact of a healthy lifestyle through healthy cooking. They will also find out about the importance of keeping themselves safe in a fast advancing technical world. We will also explore the negative impact bullying can have on an individual's mind-set.

Aspirations

To conclude our Topic, children will explore the vast opportunities that await them in the future. They will find out about many career paths that they could take in the future. They will be taught that determination and resilience is key to success.
