

Welcome to our Class 12 page

Teacher: Mrs Eliason

Teaching Assistant: Miss Taylor

I'm delighted to welcome you to our new school year. I recently joined the school, and this will be my second year. Just like some of you might feel nervous starting a new class, I feel that flutter too. That nervousness is a sign of care, and I'm excited: excited to embark on this journey with each of you, to learn your stories, and to create a classroom where every lesson helps you grow.

As an enthusiastic Maths lover, I am passionate about making maths come alive. I believe maths is not a set of rules to memorise but an exciting way to solve puzzles, think clearly and understand the world. My aim is that each lesson we learn in school, not just Maths, is going to be engaging, hands-on where possible, and built so that every child finds success.

I have three children of my own. Watching them learn, stumble and succeed has made me fiercely committed to helping every pupil reach their best. Together with Miss Taylor, we bring that dedication into the classroom: whether you need a little extra time, a different explanation, or a challenge to push you further, we will work with you until you understand and feel confident.

We have 30 children in our class, that's 30 different strengths, 30 personalities and 30 reasons to learn from each other. I want every one of you to feel seen, heard and challenged in ways that suit you. Together we'll make this year joyful, curious and successful.

Class 12's Autumn Term Plan

Our learning units for Autumn 1:

English	Write a story with a historical setting Write a balanced argument Explore poetry before modern English introduction
Maths	Roman Numerals Place Value Addition and Subtraction Multiplication and Division
