

Welcome to Class 4 with Mrs Gorman and Mrs Ellis!

We are looking forward to an Autumn term of fun and learning! In Class 4 we will be working hard towards showing our school values in the classroom so that we can have a fantastic term together in a kind and supportive environment. We have got lots of fun topics throughout the term to continue our love of learning!

This term we will be developing our skills in Reading through Phonics, so children will need to ensure they are reading every night to support their learning. In Writing we will be practicing using capital letters, finger spaces and full stops as our focus moving on to simple sentences. In Maths, we are learning about place value of numbers as well as addition and subtraction with an end focus on shape towards the end of the term.

Our topics for Autumn are as follows;

	Autumn 1	Autumn 2
Science	Everyday Materials	The human body
History	Toys	Remembrance
Design and Technology	Windmills	
Art		Remembrance drawings
Computing	Online safety and using Purple Mash	Technology outside school and Pictograms
Religious Education	Inclusion & Belonging and Being thankful	Being Modest and Expressing Joy
PSHE	Being me in my world	Celebrating difference
Physical Education	Athletics and Basketball	TBC

Our PE days are Tuesdays and Fridays although your children should already be in appropriate clothing due to the school uniform now being active wear. On Wellbeing Wednesday, we enjoy our Music and PSHE lessons where we will be learning about belonging to a community. We also teach Sustainability lessons where our focus this year will be Saving Energy.

If you have any questions, please don't hesitate to get in touch via our class email address or just pop a note in the school planner.
